VICTORIAN PRODUCTION STATISTICS  
MONTHLY BULLETIN : No.38

JANUARY, 1954

LIBRARY  
OF THE  
COMMONWEALTH BUREAU  
OF CENSUS AND STATISTICS

This Bulletin, issued by the Acting Commonwealth Statistician, shows the monthly factory production in Victoria of certain commodities. For the purpose of the accompanying statistics a "factory" is defined as an industrial establishment in which four or more hands are employed or in which power other than hand is used. Monthly averages for the years 1949-50, 1950-51, 1951-52 and 1952-53 and monthly production for November, 1952 to January, 1953 and November, 1953 to January, 1954 are shown.

Many of the items included here are shown in greater detail in other publications of the Bureau.

Figures of the production of each of the commodities listed are given up to the latest available month. Figures up to 1951-52 inclusive are taken from the Government Statist's annual factory returns wherever possible. It should be noted that in some cases annual returns are accepted from factories for periods other than those ending on June 30th, each year.

The scope of the Bulletin will be widened from time to time to include new information as it becomes available.

The following symbols are used in this bulletin:-
